Calling all cookie communicators!

Please help us keep the eBudde™ system humming by using the best tool for the communication job:

1. For basic information such as policies and procedures, post files on your council's section of the Help Center system. Volunteers can access them again and again without bogging down the system.
2. For alerts and timely reminders, use eBudde's™ in-system messaging. Now you can upload your file and the link will be sent to recipients. The attachment link will expire 45 days from the day of upload.

Remember "Caregiver email" is provided as a convenience to broadcast information to the caregivers for your girls. Unlike the "Notices" system, email messages will only go out once per "send". Recipients will not be able to reply to this email.

When you use the best tool for the communication job, you help keep eBudde™ quick and lively for everyone. Thanks!

Understanding Summary Rows

The summary rows at the bottom of the Initial Order tab calculate totals and **case rounding**:

- **Pkgs. Ordered:** Total number of packages for all girl rows plus imported, other, and booth totals.
Example: 91 (girl total) + 10 (other total) + 492 (booth total) = **593 packages**.
- **Cases to Order:** eBudde rounds up to full cases (12 packages per case). Gift of Caring packages are not included.
Example: Adventurefuls ordered = 49 packages → rounds up to **5 cases (60 packages)**.
- **Other + Extras – Charity:** eBudde calculates extras using:
Formula: (Cases to Order × 12) – Pkgs. Ordered
Example: Adventurefuls (5 × 12) = 60 – 49 = **11 extra packages**.

- **Girl Order Tab (GOT)**
- **Transactions**
- **Payments**

There are three main order types:

- **Shipped**
- **Delivered** (includes Girl Delivery, In Hand, and Pick Up)
- **Donated**

Order Types and Impact

Shipped Orders (DOC SHIP)

Note: Submitting the troop IO early may result in fewer DOC DLVR orders being included.
- **Girl Order Tab (GOT):**
 - Payment only for delivery orders (*generates a negative balance due*)
 - Combination orders (delivery + donation) create **two records:**
 - **DLVR:** Payment only.
 - **DON:** Packages and payment.
- **Payments Tab:** Payment recorded.
