

Want to go backstage at Epcot to learn about the Technology of Disney Parks?

Saturday, January 24, 2026

High school Girl Scouts have the opportunity to take a field trip to the Disney Parks in Orlando, Florida!

In this unique Technology of Disney Parks Workshop, Girl Scouts will learn how Disney stories are central to everything in Disney Parks and get an inside look at how Disney Imagineers dream design and use technology and engineering in the guest experience.

From Audio-Animatronics to lighting and sound effects and more, Girl Scouts will learn why technology is the most valuable as well as the most challenging tool used in theme park operations every day.

Pricing

Base price is \$250, which includes 2 day Disney Park ticket and Technology workshop

4 person rooms start at \$161 per night. Flights, transportation, and meals are not included.

We need at least 15 student participants for this to happen, so spread the word about this magical adventure!
